

Because of the new situation where Online-tournaments are the only way of organizing international Go-events here's a motion with a validation limit till the 2022 AGM of the EGF, where other rules might be fixed.

- a) Online-tournaments, organized by individual players or Go-clubs, can be rated highest as Class C
- b) Online-tournaments, organized by a national Go-organisation, can be rated highest as Class B
- c) Online tournaments, organized by the EGF, can be rated highest as Class A
Prerequisite for rating an online-tournament higher than Class D is a kind of "installed control" for fair-play (independent video-sessions, no ear-phones, announcing/installing a control-team or local proctors for all games, ...).
